Tonquish Creek Adventure Guide Expedition Meeting June, 2008

Event Leaders: Please remember to fill out post-event reports so we can keep track a history of event details. Tonquish Creek Expedition believes strongly in continuous improvement.

Allan P. reviewed some printed material that discussed Lightning/Bad Weather safety. After the recent experience at Walnut Hills, we have decided to have a process in place where emergency procedures are discussed with all Campers early in the weekend. Everyone should know where to go, what to look for, etc.

It was discussed that we will need to assess who is in for next year so that we can understand how to adjust or form new Circles.

Recruiting was discussed but we will have formalize plans at the August meeting.
